RYDLYME®

World's Leading Biodegradable Descaler

THE ALL-IN-ONE DESCALER.

BIODEGRADABLE

SAFE

EFFECTIVE

DISSOLVE THE TOUGHEST MINERAL DEPOSITS

For over 80 years, **RYDLYME** biodegradable industrial descaler has been used to safely and efficiently dissolve tough mineral deposits such as: water scale, lime scale, calcium, rust and even struvite. This revolutionary descaler is fortified with a complex formula of wetting and penetrating agents that dissolve mineral deposits into solution for quick and easy disposal.

Often imitated - never duplicated. Imitation is the sincerest form of flattery, but in this industry - safety is our number one priority. **RYDLYME** is safe on metals, personnel and can be disposed of down an ordinary drain. Most companies sell numerous descalers that have to be used on certain metals and locations. We demonstrate that **RYDLYME** is safe enough to hold in your open hand - but, please do not attempt this with other descalers without first thoroughly consulting their most current SDS. Use **RYDLYME** anywhere that scale has developed from hard water. Boilers, heat exchangers, condensers, cooling towers - there's no scale that is too tough for **RYDLYME**.

WHY CHOOSE **RYDLYME**®?

World's Leading Biodegradable Descaler

Read the details, it's on the label.

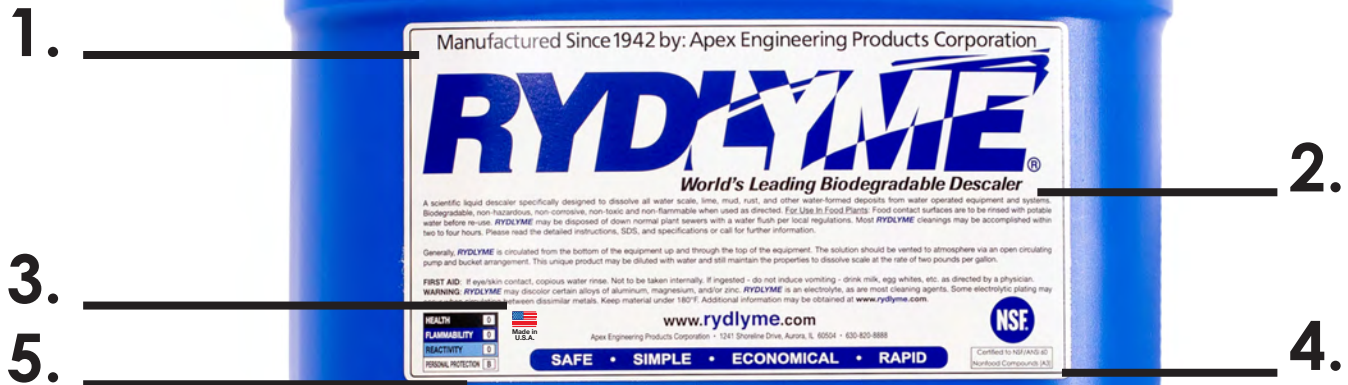

While there are many alternatives to **RYDLYME** available, they are not created equal. The facts are on the SDS and label.

1. **Manufactured since 1942.** Apex Engineering Products Corporation has been manufacturing the same **RYDLYME** formula for over 80 years!
2. **World's leading biodegradable descaler.** Now this is a statement we're proud of. You can find **RYDLYME** success stories literally across the globe!
3. **Made in U.S.A.** **RYDLYME** has and always will be manufactured in an ISO Certified Facility in the United States of

America. From formulation to shipping, everything is done under one roof.

4. **NSF/ANSI/CAN 60 Certified.** **RYDLYME** is safe for use on potable water systems and is safe for personnel. You can hold **RYDLYME** in your open hand without injury. A win-win in our book.
5. **HMIS** - take a look and compare to other 'safe' or 'biodegradable' descalers on the market. Does their HMIS stand a chance against ours in terms of safety?

While other descalers on the market may say 'just like **RYDLYME**' - there really is no comparison.

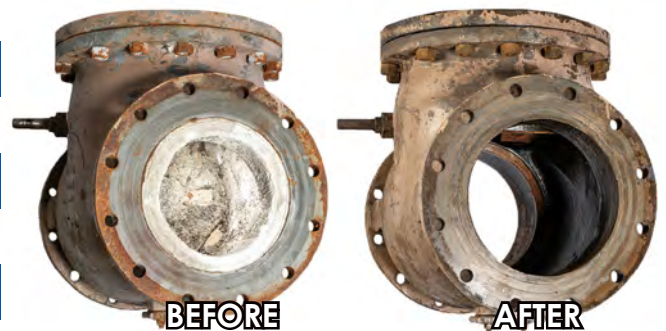

RYDLYME®

World's Leading Biodegradable Descaler

RYDLYME biodegradable descaler is uniquely formulated to dissolve the toughest water scale, lime scale, mud and rust deposits from virtually any water-operated equipment. NSF A3 and ANSI/CAN 60 certified.

RYDLYME biodegradable descaler is used to safely remove scale deposits from boilers, chillers, cooling towers, condensers, heat exchangers, struvite and even more!

World's Leading Biodegradable Descaler

INDUSTRIAL DESCALING SYSTEMS

RYDLYME Industrial Descaling Systems are specifically designed to circulate **RYDLYME** biodegradable descaler through a vast array of equipment and systems keeping your facility in peak operating condition.

We proudly offer Iwaki seal-less magnetic drive pumps and air powered double diaphragm pumps also available on a cart system.

PORTABLE FLUSHING KIT

INCLUDES RYDLYME MARINE BIODEGRADABLE DESCALER!

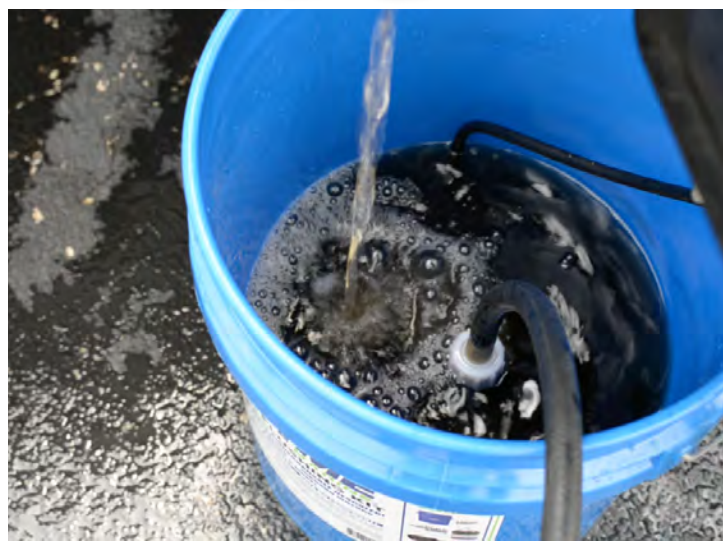

AC UNITS • OUTBOARD MOTORS • INBOARD MOTORS
HEAT EXCHANGERS & MORE!

NON-HAZARDOUS! • SAFE TO HANDLE! • SAFE ON EQUIPMENT!

RYDLYME Marine Portable Flushing Kit (PFK) was designed for the boating enthusiast in mind to clean scale build up in various applications with convenience and ease! Simply set up the kit per the included directions, add **RYDLYME Marine** descaler with equal amount of water and begin cleaning! **SKU: PFK 350**

Kit Includes:

- 5 gallon circulating bucket
- 5.8 GPM submersible pump
- (2) 6-foot hoses
- 1 gallon of **RYDLYME Marine** Biodegradable Descaler

RYDLYME[®] TANKLESS WATER HEATER CLEANING KIT

Mineral deposits can accumulate rapidly in your tankless water heater robbing you of heating efficiency and money each month. By periodically cleaning your tankless water heater with **RYDLYME** Biodegradable Descaler Tankless Hot-Water Descaling Kit (RTK), you can keep it operating at peak efficiency and reduce heating and water costs, as well as extend the life of your unit! **SKU: RTK 350**

Kit includes:

- 5 gallon circulating bucket
- 5.8 GPM submersible pump
- (2) 6-foot hoses
- (1) Mounting clamp
- (2) Quarts of RYDLYME Biodegradable Descaler

Biodegradable and NSF/ANSI 60 certified.

RYDALL **CC**

BIODEGRADABLE Coil Cleaner TM

RYDALL CC Coil Cleaner is a biodegradable, concentrated solution that is safe for indoor and outdoor cleaning of air exposed surfaces on HVAC/R equipment. Dilutable and capable of being applied via foaming applicator. NSF A3 certified.
